## BENEFITS

Easy to use. Can substantially reduce labor costs.

Robust and long-lasting UV protection (550KLY), with a life expectancy of 5 to 10 years, depending on climate.

250gsm tight weave, High Density Polyethylene composition protects Silostop films from UV light and physical damage such as hail, birds and rodents.

Silostop Anti-UV covers should be secured using Silostop Gravel Bags to ensure maximum protection.

## PRODUCT INFORMATION

Silostop Anti-UV cover is 250gsm and standard sizes are 32ft and 50ft width and 40ft, 50ft and 59ft length. Custom sizes are available on request.
